

# Population density 2019

## Inhabitants per square kilometre

The highest population density of the Centrope region (calculated as inhabitants per square kilometre) is observed in and around the greater agglomeration areas (Vienna and southern surroundings, Bratislava, Brno and Győr regions).

Especially at the boundaries between Lower Austria and the Czech Republic a lower population density can be found; most probably due to late effects of the Iron Curtain, whereas there are almost no effects of the 1992 established border between the Czech and Slovak Republics are visible in terms of population density.

### Population density 2019

Inhabitants per km<sup>2</sup>

| County            | Area (km <sup>2</sup> ) | Total population 2019 | Population density 2019 (inh./km <sup>2</sup> ) |
|-------------------|-------------------------|-----------------------|---|
| Burgenland        | 3 962                   | 293 433               | 74  |
| Lower Austria     | 19 185                  | 1 677 542             | 87  |
| Vienna            | 415                     | 1 897 491             | 4 572   |
| Jihočeský         | 10 100                  | 642 133               | 64  |
| Jihomoravský      | 7 228                   | 1 187 667             | 164   |
| Vysočina          | 6 800                   | 509 274               | 75  |
| Győr-Moson-Sopron | 4 317                   | 467 144               | 108   |
| Vas               | 3 397                   | 253 551               | 75  |
| Bratislavský      | 1 992                   | 659 598               | 331   |
| Trnavský          | 4 224                   | 563 591               | 133   |
| <b>Centrope*</b>  | <b>61 620</b>           | <b>8 151 424</b>      | <b>132</b>                                      |
