

Working age population 2015–2025

Change of population aged 15 to 64

The change of working age population (people aged from 15 to 64 years) from 2015 to 2025 shows an overall decrease in the Centrope countries on average, while Vienna can maintain its ratio. The highest decreases can be noticed in Burgenland and the Slovak part of the region. Nevertheless, these regions also have municipalities with a positive change, especially in the Vienna-Bratislava twin city region. Also the values in the agglomerations around the bigger cities like Győr, Brno, or České Budějovice are clearly above average.

Change of population
15–64, 2015–2025

County	Total population 2025	Population aged 15–64 2025	Total population 2015	Population aged 15–64 2015	Population 15–64, change 2015–2025 (%)
Burgenland	301 790	188 281	288 356	191 018	– 4
Lower Austria	1 727 514	1 104 282	1 625 485	1 075 584	– 2
